Dimock Daily Report

Date: February 29, 2012

FIELD ACTIVITY

Water Supply (Gerald Heston)

- The delivery of water continues. The larger tanks installed earlier this week are expected to reduce the delivery schedule from 7 deliveries per week to 3 per week.

-

Water Sampling (Gerald Heston)

- The Site Team continues to review and validate sampling data.

-

- A resident let the OSC know that Cabot has begun providing its sample results to individual residents. At this time, we do not know how many residents Cabot has contacted or under what schedule they may be working.

-

COMMUNICATIONS (Helen Duteau)

- The Community Involvement Coordinator (CIC) has been receiving calls from residents requesting their data results. The CIC also heard from several residents that they have received data results from Cabot. One resident shared his Cabot data with the CIC who forwarded it to the OSC for review.

-

- The region has begun drafting a roll-out strategy for communicating data to the residents, including a fact sheet to distribute in advance of the roll-out.

-

- A draft paid advertisement has been prepared to announce the availability of the Administrative Record for the Action Memo and a 30-day public comment period.

-

LEGAL ISSUES (Humane Zia)

- Cabot's counsel emailed the Office of Regional Counsel (Humane Zia) stating that Cabot will be providing the location information for most of the 121 residential samples Cabot claims to have taken in the Site area. This is in response to EPA's 104(e) letter. Cabot expects to send this information by March 2, 2012.

Dimock Daily Report

Date: March 1, 2012

FIELD ACTIVITY

Water Supply (Gerald Heston)

- Delivery of water continues.

Water Sampling (Gerald Heston)

- At the request of a resident, the On-Scene Coordinator and ATSDR plan to meet with her tonight to discuss potential health concerns associated with drinking water well contamination. EPA had determined previously that alternate water was needed at her home but then found out that Cabot had already acted to provide water. Although Cabot is already providing water, the resident still would like to meet with EPA.
- The site team is mobilizing back to the site on Sunday, March 4, 2012 to resume sampling on Monday, March 5, 2012. Four (4) homes are currently scheduled to be sampled; two homes on Monday, March 5 and two homes on Tuesday, March 6, 2012. At least one more home will be scheduled during the week.

LEGAL ISSUES

None reported.

COMMUNICATIONS

None reported.
